Description

When comparing the price of the KNK Zing Air to cartridge based machines, you will find that the cartridges and machine will quickly add up to more than this heavy-duty cutting system.

This software driven machine allows for design flexibility, image sizing, scanning and altering existing files.

Design Freely with the KNK Zing Air!

Features:

- KNK Zing is your open source creation solution! **No need to waste money on cartridges.**
- Extremely Compact: At 4.75" tall, 6.25" deep and less than two feet wide, the KNK Zing offers a cutting width of 14" in the least amount of space.
- High Force With 750 grams of force, the KNK Zing can cut a larger range of materials – vinyl, cardstock, fabric, thin chipboard, rhinestone rubber, craft plastic and much more!
- Print and Cut With built-in Laser alignment, the KNK Zing performs quick and precise print-and-cuts.
- Bundled with Make The Cut software, featuring a simplified interface, the KNK Zing is the easiest computer-connected cutter to learn and use. With over 30 years of experience, Accugraphics used their knowledge to develop a new product that incorporates the newest electronics with quieter motors, faster speeds, higher force and the widest cutting area of any cutter in its class.
- You will find over 95% of the Zing's mechanics are made from high-quality metal," thus built for the long haul. The KNK Zing is a more affordable cutting system without compromising quality or features.
- Now with ZingSpeak: All adjustable settings + Move control can be controlled by voice.
- Now with 3 wheels, allowing users to cut 12" and 4" vinyl without the need for a cutting mat.
