Description

Welcome to our first Letterpress + Foil plate for the Spellbinders BetterPress system!

This snowy tree scene really stands out when used for foiling.

Combine with your favorite foil and the Glimmer system from Spellbinders.

The Letterpress relief works well when combined with a thick paper like our watercolor paper or the paper recommended for BetterPress.

Be sure to use all of the shims to get the best results.

You can also ink the plate (our Intensified Black ink works great for this) before creating your Letterpress look, which takes a heavy application of ink given the large surface space of the plate.

Enjoy all of your foiling, debossing, and inked impressions with the Letterpress + Foil plate from Hero Arts!
